Process Flow after the user(employee) submits the application form:

Once the user(employee) submits the application form, the form moves to executive(trust) for approval process wherein the the executive has option to Verify/Reject/On hold/Add attachments/Close.

Verify: Once the application form is verified, the request will go to concerned DDO for further process. DDO has an option to either Approve/Reject the application form. If Rejected, it goes back to employee for correction. If Approved, the application form goes to the card vendor wherein a temporary card will be generated for the beneficiary.

Reject: Once the application form is rejected, the application form is sent back to the user(employee) for verification process.

On Hold: Executive has a provision to keep the request 'on hold'. If the request is on hold, it goes to Team Leader(TL) wherein he has a provision to either Approve/Reject the application form. If Rejected, it goes back to employee for correction. If Approved, the application form goes to the concerned DDO and the process flows again from DDO.
